

Caro-Kann Defense

A ground-up visual course for practical play

Core route position - gold marks the last move

BOTH SIDES

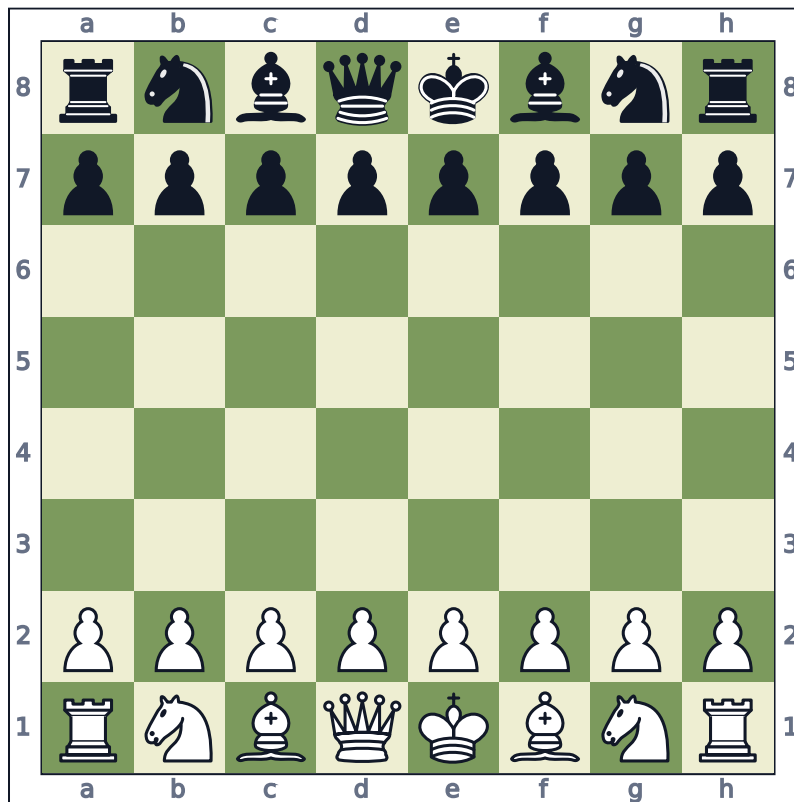

OPENING IDENTITY

Black builds a sound center while keeping the light bishop outside the pawn chain.

ORIENTATION

Ground zero: read the board and the moves

White starts from ranks 1-2; Black starts from ranks 7-8. Files run a through h. Each lesson highlights the last move in gold so your eyes connect notation to the board.

Starting position - White to move

HOW ALGEBRAIC NOTATION WORKS

Nf3 means a knight moves to f3. B means bishop, R rook, Q queen, K king; pawns use only the destination square. An x means capture, + means check, and O-O means kingside castling.

YOUR FIRST ANCHOR

Say the first moves aloud, then point to every destination square:

1. e4 c6 2. d4 d5 3. e5 Bf5

Course promise: Bishop out, center challenged, structure sound.

MOVES 1-3

Lesson 1: the first conversation

1. e4 c6 2. d4 d5 3. e5 Bf5

After 3. e5 Bf5

- 1. e4 - Claims or challenges central space and opens a line for a piece.
- 1... c6 - Creates a lever against the center or supports a coming break.
- 2. d4 - Claims or challenges central space and opens a line for a piece.
- 2... d5 - Claims or challenges central space and opens a line for a piece.
- 3. e5 - Claims or challenges central space and opens a line for a piece.
- 3... Bf5 - Develops on an active diagonal, often adding a pin or long-range pressure.

DEVELOPMENT

Lesson 2: build the core position

1. e4 c6 2. d4 d5 3. e5 Bf5 4. Nf3 e6 5. Be2 c5

WHAT THE PIECES ARE BUILDING

Black builds a sound center while keeping the light bishop outside the pawn chain.

BEGINNER CHECKPOINT

Before copying the next move, ask: Is my king safe? Which piece is still at home? What changed in the center? Which pawn break is each side preparing?

CORE LINE

Lesson 3: complete the main route

1. e4 c6 2. d4 d5 3. e5 Bf5 4. Nf3 e6 5. Be2 c5 6. O-O Nc6 7. Be3 cxd4 8. Nxd4

Core position - now plans matter more than memorized moves

DO NOT MEMORIZE BLINDLY

The route is a model, not a forced script. Its job is to teach this relationship: Black builds a sound center while keeping the light bishop outside the pawn chain. If the opponent deviates, preserve the same priorities until a concrete tactic changes them.

UNDERSTANDING

The position map: plans for both sides

Read plans from the pawn structure, not from the opening name

WHITE'S PLAN

Use space, develop without blocking the center, and respond accurately to ...c5.

BLACK'S PLAN

Complete development, challenge d4, and avoid allowing e5 to become untouchable.

THE LEVER TO REMEMBER

...c5 is the main equalizing lever; ...f6 may attack e5 later.

CALCULATION

Tactical literacy: what can suddenly change

Pause here - Black to move

THEME

The f5-bishop can be chased, but every pawn push leaves squares behind.

COMMON BEGINNER ERROR

Spending many tempi trapping the bishop while Black breaks open the center.

THREE-SECOND SAFETY SCAN

1. Checks against both kings. 2. Captures in the center. 3. Threats against loose or pinned pieces.

ADAPTATION

Decision tree: when the opponent leaves the route

A branch point - principles are your map

1. If the center stays fluid

Finish development and keep the opening identity in view: Black builds a sound center while keeping the light bishop outside the pawn chain.

2. If the center closes

Use the pawn-chain direction. Attack the base before making wing moves that cannot be supported.

3. If the center opens

Prioritize king safety, active pieces, and checks or captures before slow pawn moves.

4. If nothing is forced

Return to the planned lever: ...c5 is the main equalizing lever; ...f6 may attack e5 later.

MEMORY SENTENCE

Bishop out, center challenged, structure sound.

ACTIVE RECALL

Recall test: answer before you turn the page

POSITION A

White to move

POSITION B

White to move

- A1. What is the next route move for White?
- A2. What opening problem does that move solve?
- B1. What is the next route move for White?
- B2. Name one plan for White and one plan for Black.
- C. State the thematic pawn break without looking back.

SCORING

5/5: replay from memory. 3-4/5: review Lessons 3 and 6. 0-2/5: return to Lesson 1 and rebuild the route slowly.

RETENTION

Answer key and a 14-day practice loop

POSITION A

Next route move: e5. Explain it using development, center, king safety, or a direct tactical need.

POSITION B

Next route move: Be2. Then compare the position with the final core board.

PLAN AND BREAK ANSWERS

White: Use space, develop without blocking the center, and respond accurately to ...c5. Black: Complete development, challenge d4, and avoid allowing e5 to become untouchable. Lever: ...c5 is the main equalizing lever; ...f6 may attack e5 later.

14-DAY LOOP

- Days 1-2: replay the first three moves from both sides and name each move's job.
- Days 3-4: build the core position from memory; correct the first error, then restart.
- Days 5-6: say White's plan, Black's plan, and the pawn break without a board.
- Day 7: take the recall test. Record the score; do not count lucky guesses.
- Days 8-10: play three slow practice games, starting from the core position if possible.
- Days 11-13: review only mistakes and deviations that actually occurred in your games.
- Day 14: retake the test and write a one-sentence opening rule in your own words.
