

Catalan Opening

A ground-up visual course for practical play

Core route position - gold marks the last move

BOTH SIDES

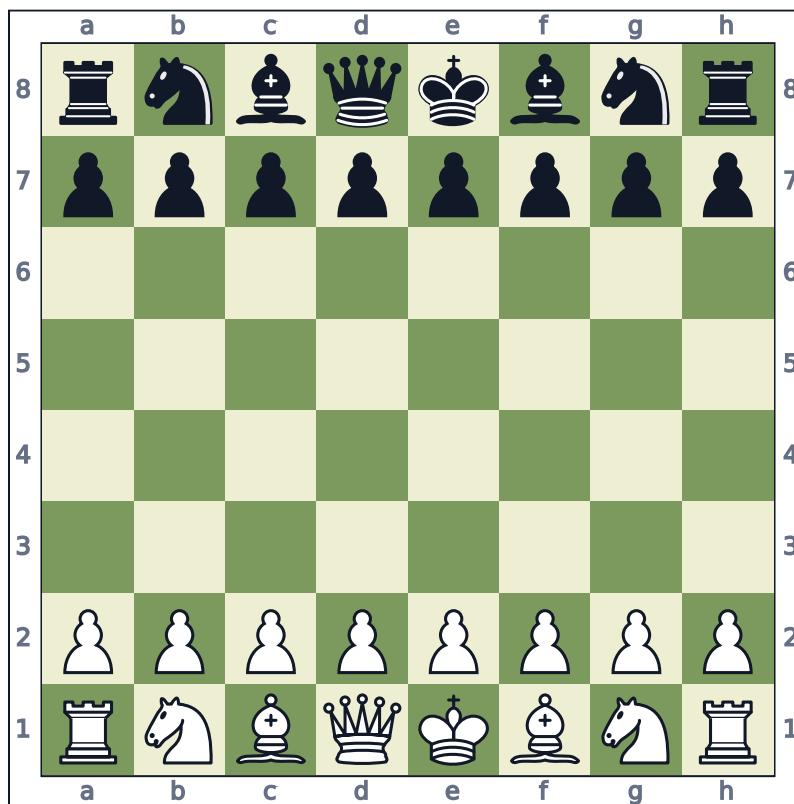

OPENING IDENTITY

White combines Queen's Gambit pressure with a long bishop on g2.

ORIENTATION

Ground zero: read the board and the moves

White starts from ranks 1-2; Black starts from ranks 7-8. Files run a through h. Each lesson highlights the last move in gold so your eyes connect notation to the board.

Starting position - White to move

HOW ALGEBRAIC NOTATION WORKS

Nf3 means a knight moves to f3. B means bishop, R rook, Q queen, K king; pawns use only the destination square. An x means capture, + means check, and O-O means kingside castling.

YOUR FIRST ANCHOR

Say the first moves aloud, then point to every destination square:

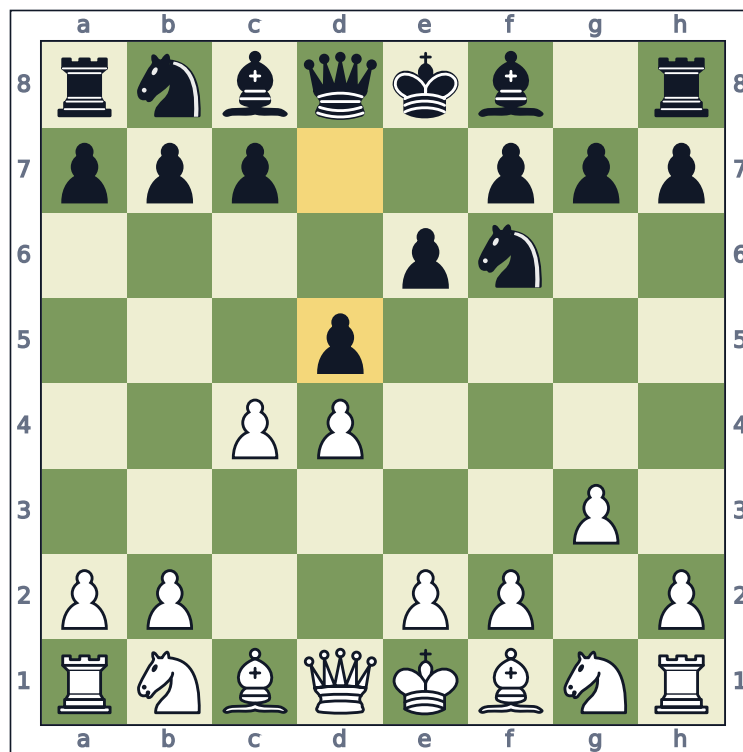

1. d4 Nf6 2. c4 e6 3. g3 d5

Course promise: The bishop is the opening's long-range engine.

MOVES 1-3

Lesson 1: the first conversation

1. d4 Nf6 2. c4 e6 3. g3 d5

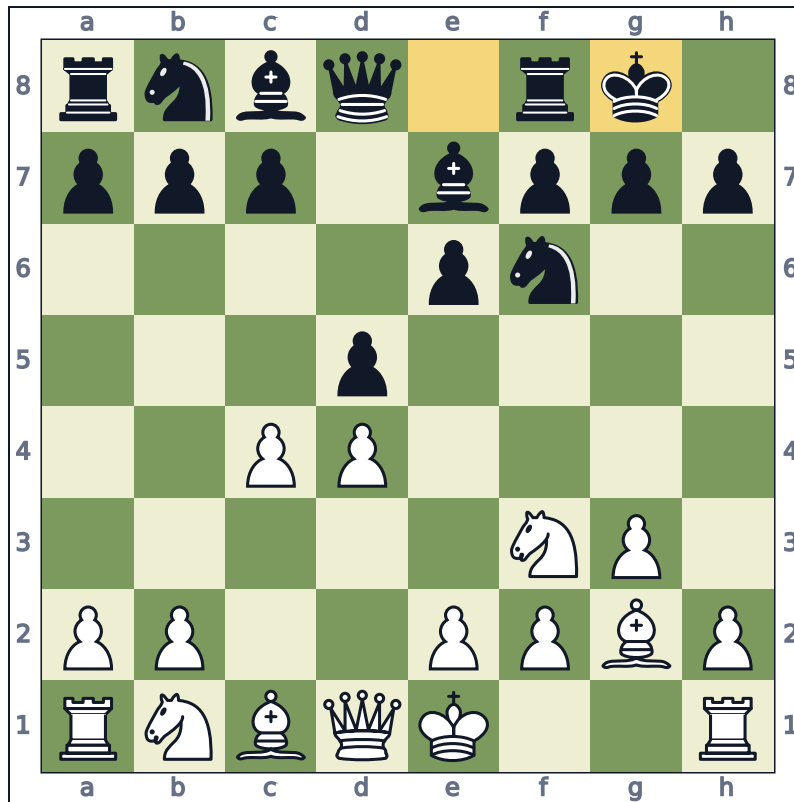

After 3. g3 d5

- 1. d4 - Claims or challenges central space and opens a line for a piece.
- 1... Nf6 - Develops a knight toward the center and increases control of key central squares.
- 2. c4 - Creates a lever against the center or supports a coming break.
- 2... e6 - Claims or challenges central space and opens a line for a piece.
- 3. g3 - Gains wing space, but also changes squares that can no longer be protected by this pawn.
- 3... d5 - Claims or challenges central space and opens a line for a piece.

DEVELOPMENT

Lesson 2: build the core position

1. d4 Nf6 2. c4 e6 3. g3 d5 4. Bg2 Be7 5. Nf3 O-O

WHAT THE PIECES ARE BUILDING

White combines Queen's Gambit pressure with a long bishop on g2.

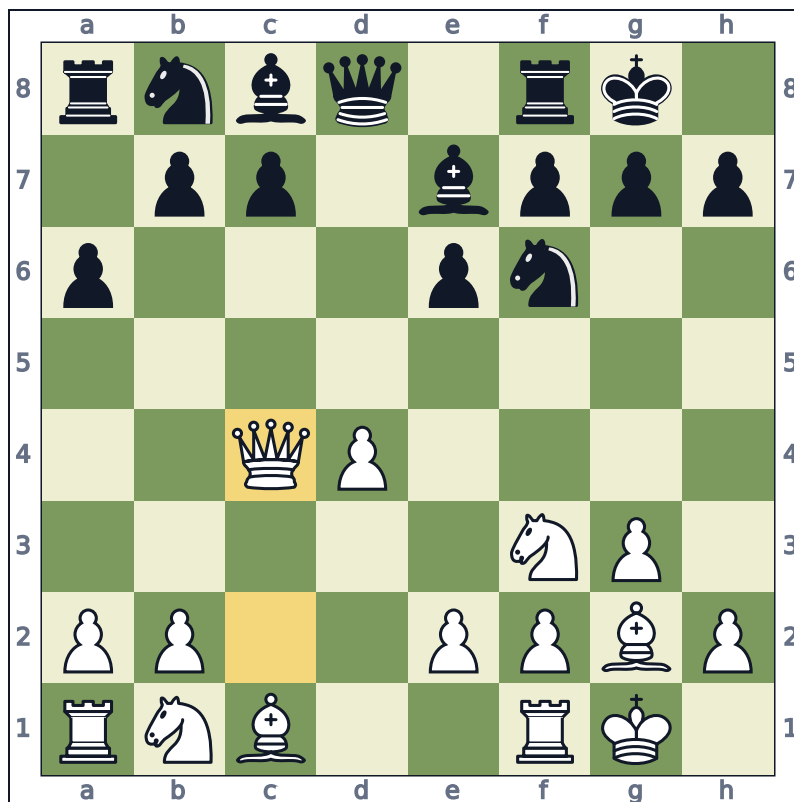

BEGINNER CHECKPOINT

Before copying the next move, ask: Is my king safe? Which piece is still at home? What changed in the center? Which pawn break is each side preparing?

CORE LINE

Lesson 3: complete the main route

1. d4 Nf6 2. c4 e6 3. g3 d5 4. Bg2 Be7 5. Nf3 O-O 6. O-O dxc4 7. Qc2 a6 8. Qxc4

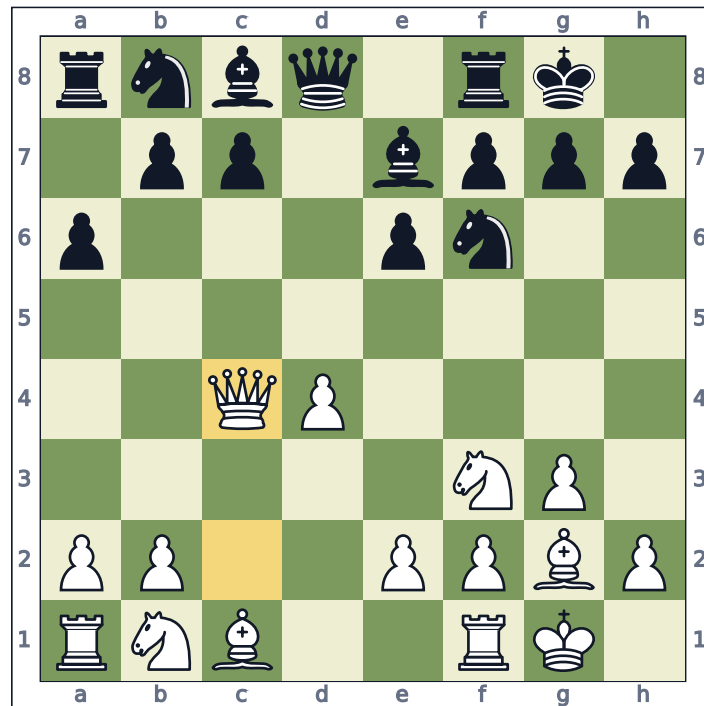

Core position - now plans matter more than memorized moves

DO NOT MEMORIZE BLINDLY

The route is a model, not a forced script. Its job is to teach this relationship: White combines Queen's Gambit pressure with a long bishop on g2. If the opponent deviates, preserve the same priorities until a concrete tactic changes them.

UNDERSTANDING

The position map: plans for both sides

Read plans from the pawn structure, not from the opening name

WHITE'S PLAN

Use the bishop's diagonal, recover c4 without losing time, and press queenside weaknesses.

BLACK'S PLAN

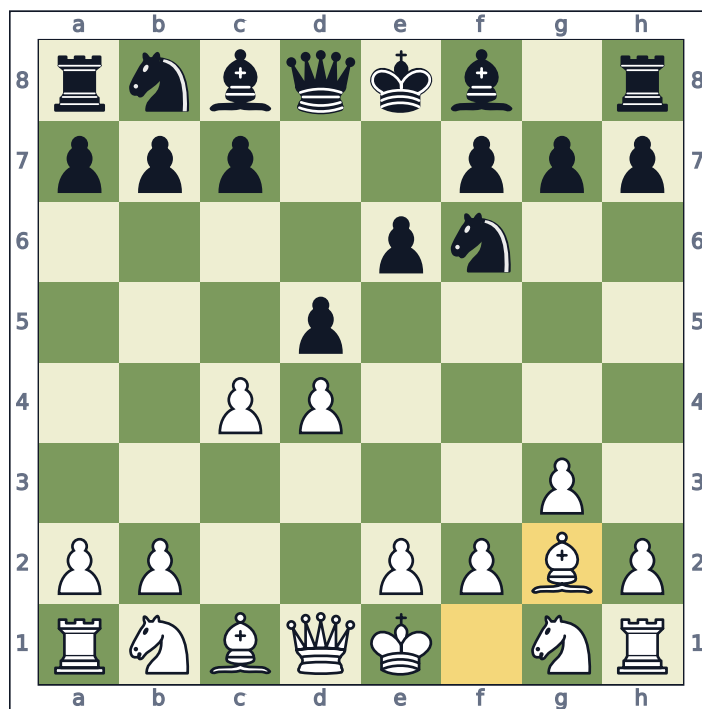

Resolve the center, neutralize the g2-bishop, and seek ...c5 or active queenside play.

THE LEVER TO REMEMBER

White may use e4; Black's ...c5 challenges the center.

CALCULATION

Tactical literacy: what can suddenly change

Pause here - Black to move

THEME

The g2-bishop can regain the c4-pawn indirectly when the diagonal opens.

COMMON BEGINNER ERROR

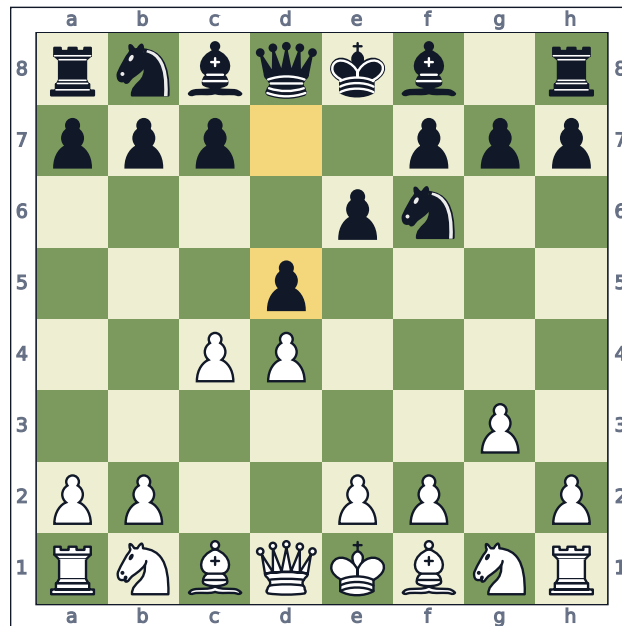

Calling the bishop strong while leaving its diagonal blocked by White's own center.

THREE-SECOND SAFETY SCAN

1. Checks against both kings. 2. Captures in the center. 3. Threats against loose or pinned pieces.

ADAPTATION

Decision tree: when the opponent leaves the route

A branch point - principles are your map

1. If the center stays fluid

Finish development and keep the opening identity in view: White combines Queen's Gambit pressure with a long bishop on g2.

2. If the center closes

Use the pawn-chain direction. Attack the base before making wing moves that cannot be supported.

3. If the center opens

Prioritize king safety, active pieces, and checks or captures before slow pawn moves.

4. If nothing is forced

Return to the planned lever: White may use e4; Black's ...c5 challenges the center.

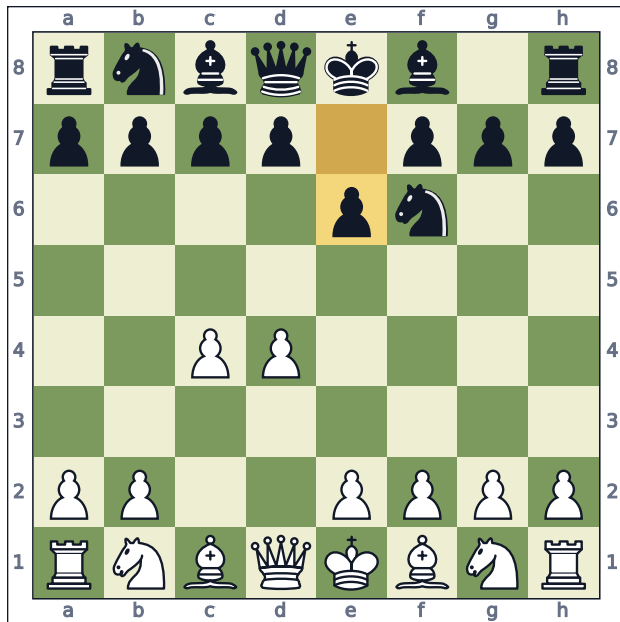

MEMORY SENTENCE

The bishop is the opening's long-range engine.

ACTIVE RECALL

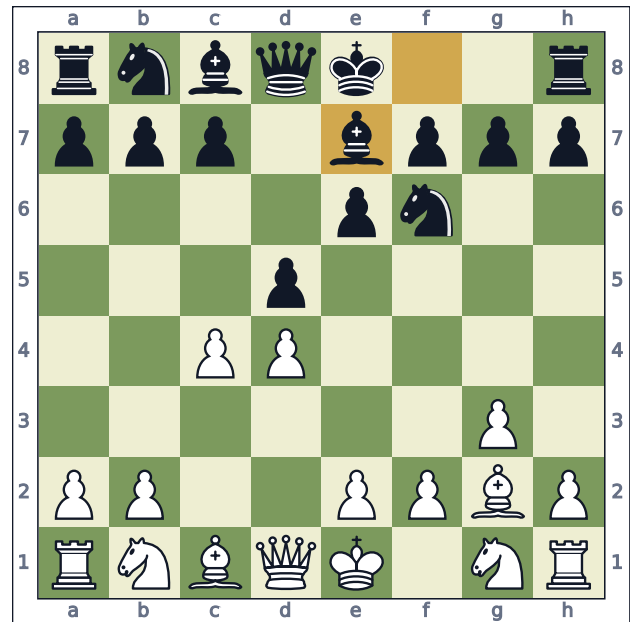

Recall test: answer before you turn the page

POSITION A

White to move

POSITION B

White to move

- A1. What is the next route move for White?
- A2. What opening problem does that move solve?
- B1. What is the next route move for White?
- B2. Name one plan for White and one plan for Black.
- C. State the thematic pawn break without looking back.

SCORING

5/5: replay from memory. 3-4/5: review Lessons 3 and 6. 0-2/5: return to Lesson 1 and rebuild the route slowly.

RETENTION

Answer key and a 14-day practice loop

POSITION A

Next route move: g3. Explain it using development, center, king safety, or a direct tactical need.

POSITION B

Next route move: Nf3. Then compare the position with the final core board.

PLAN AND BREAK ANSWERS

White: Use the bishop's diagonal, recover c4 without losing time, and press queenside weaknesses. Black: Resolve the center, neutralize the g2-bishop, and seek ...c5 or active queenside play. Lever: White may use e4; Black's ...c5 challenges the center.

14-DAY LOOP

- Days 1-2: replay the first three moves from both sides and name each move's job.
- Days 3-4: build the core position from memory; correct the first error, then restart.
- Days 5-6: say White's plan, Black's plan, and the pawn break without a board.
- Day 7: take the recall test. Record the score; do not count lucky guesses.
- Days 8-10: play three slow practice games, starting from the core position if possible.
- Days 11-13: review only mistakes and deviations that actually occurred in your games.
- Day 14: retake the test and write a one-sentence opening rule in your own words.
