

COMPLETE CHESS LEARNING LIBRARY

# The Complete Hippopotamus Defense

Central restraint, adaptive breaks, king safety, and practical move-order skill

TRAINING WORKBOOK

50 focused chapters - model positions - decision rules - retrieval practice

Designed to change what you notice, calculate, remember, and do at the board.

# Workbook Method

Attempt each page before reopening the matching course-book chapter. Speak answers aloud or write them. The self-score rewards a clear decision rule and the opponent's best reply, not a lucky move guess.

## REVIEW THRESHOLD

8-10: review in one week. 5-7: review tomorrow. 0-4: reread the course chapter now, then retry from a blank board.

Use the workbook again after a game reaches a related structure. Real-game retrieval is the final test.

# 01. Move-Order Discipline - Stage 1

HIPPO FOUNDATION

POSITION PROMPT

Black has chosen a flexible fianchetto without yet promising a full Hippo shell.

# 42. When White Refuses a Big Center - Stage 2

HIPPO ADAPTATION

POSITION PROMPT

White's London development does not justify Black surrendering the whole center without question.

# 43. When White Refuses a Big Center - Stage 3

HIPPO ADAPTATION

POSITION PROMPT

The English move order creates queenside influence without an immediate e4-d4 pawn duo.

# Monthly Retention Audit

Select ten random chapters and complete them under a ten-minute total limit. Track the categories you repeatedly miss: threat, candidate, structure, piece job, or forecast.

Do not restart the entire course. Return to the smallest group of chapters that repairs the repeated error, then test again in one week.
